COVERMAX Sheets are box profile roofing sheet available in a variety of colours. They are suitable for domestic and light industrial or commercial application.

Features and Benefits:

- CX880 is a trapezoidal profiles with box crest and valleys suitable for roofing and wall cladding.
- It is especially targeted at domestic and light industrial/commercial applications where the goal is economy and aesthetics.
- CX880 has 4 troughs and 5 ribs. The valley (trough) is wider than the crest (rib) and stiffened using two 25mm wide strips.
- Box CX880 can be factory cranked into curves of minimum 400mm radius to enhance their use and aesthetic properties.

Going Green

Allows for water harvesting from rainwater – Once installed collection of rainwater runoff has many benefits for domestic and agricultural use.

Disposal & Recycling – Disposal if needed will be by the standard steel recycling process of recycling in a steel recovery plant into new steel products. This is simple and the greenest way to build.

Manufacturing process - majority of the water used in the manufacture of this material is recycled.
Air and fume emissions comply with the environmental regulation laws.
